# Bridging the Gap
# Summer Mentorship Program

## The Issue

- Women are underrepresented in math-based STEM fields, like computer science

- Minority and low-income students lack access to resources and role models

## The Solution

- A FREE and FLEXIBLE summer mentorship program to encourage girls to explore careers in tech

## Your Role

- For high school students: Register your interest below! No experience necessary

- For sponsors/volunteers: Fund scholarships or sign up to mentor future women in tech

# Register as a Participant
